

Part-8 To Do List

By Santosh Turerao.

.html page
has table

```
TS app-routing.module.ts TS list-todos.component.ts <> list-todos.component.html x
src > app > list-todos > <> list-todos.component.html > ...
1  <table border="1">
2    <caption>
3      The Table
4    </caption>
5    <thead>
6      <tr>
7        <th>id</th>
8        <th>Description</th>
9      </tr>
10   </thead>
11   <tbody>
12     <tr *ngFor="let student of students">
13       <td>{{ student.name }}</td>
14       <td>{{ student.age }}</td>
15     </tr>
16   </tbody>
17 </table>
18
```

.js page has a
array of
objects.

```
students = [  
  {  
    name: "santosh",  
    age: 28  
  },  
  {  
    name: "rupali",  
    age: 24  
  },  
  {  
    name: "vaibhav",  
    age: 18  
  },  
  {  
    name: "rahu1",  
    age: 18  
  }  
];
```

Routing page

```
const routes: Routes = [  
  { path: "", component: LoginComponent },  
  { path: "login", component: LoginComponent },  
  { path: "welcome/:name", component: WelcomeComponent },  
  { path: "todos", component: ListTodosComponent },  
  { path: "**", component: ErrorComponent }  
];
```

All The Best
